

Ospon Bluetooth Smart Lock

The OSPON Bluetooth Smart Lock is the safe, simple, and social way to manage your home's lock. Now you can control who can enter and who can't—without the need for keys. And you can do it all from your iOS or Android smartphone.

Secure your security

Smart keyless remote

OSPON's AES encryption locking technology is safer than keys that can get lost. Create virtual keys for family and guests, never copy a key again. Choose to grant access for a few weeks, a few hours, a few minutes, or even specific dates and times. Delete guest access any time in an instant.

Total control

You control when people have access to your home. For example you can issue a virtual key that works 24/7 for a family member, or another virtual key that works only couple of hours a week for home cleaning.

Knows who comes and goes

Tracks who enters and exits your home. And with unique keys for each user, you'll always know who opens your door and when.

Auto-Lock & Auto-Unlock

No more fumbling for keys. Ospon Smart Lock auto-locks behind you for peace of mind and automatically unlocks as you approach. Turn on or off whenever you want.

Simple to use

Guest access

Specific days and times when the recipient can enter. No need to worry about getting keys back from guests or renters.

Easy Install

OSPON replaces existing knobs and no wiring or drilling required, in about 10 minutes, you are good to go

Password and emergency unlocking

The OSPON BLE smart Lock is optimized for smartphones, but also supports password, making it

effortless to lock and unlock your door. The codes are great for children and others who doesn't carry smart phones. The code is easy to create, making it a perfect alternative for times when you don't want to take your phone with you, like your morning run. Every OSPON BLE smart Lock comes with two traditional (mechanical) keys as backups in case you ever need them.
